1   Licence Activation for GR/GM Series

Validity of this guide

This guide applies to GR10/GR30, GR25/GR50, GM10/GM30.

Dear valued customer...

Thank you for purchasing a licence for our product. The following instructions will guide you through the licence activation process.

☞   Please register your product at myWorld.leica-geosystems.com, our internet platform for our customers. myWorld provides 24/7 access to all information you require to actively manage your equipment. Here, detailed information on individual products and their service history can be found. The information also aids in maintaining the product value while at the same time enabling maximum efficiency and productivity.

Activate licence

☞	The procedure is valid for any licence key.
1.	Turn on the product.
2.	Access the web interface and log in with an administrator account.
3.	Go to **Receiver setup\Tools\Options**.

4.	To type in an licence key:	To type in an licence key:
	Key: Enter the licence key. The key is contained in the licence file. You can copy and paste the key into the field.	Press ✚ to upload a new licence from the computer to the receiver. Opens the **File upload** page.
	Press 🌐 to install the licence.	

☞   If a software maintenance licence was activated refer to "Update software" to update the software on the product.

Update software

Via myWorld:

1.	If the GR/GM is in your office, connect it your your PC via USB cable.
2.	Go to www.myworld.leica-geosystems.com and log in.
3.	Go to **myProducts** and select your product.
☞	If your product is not in the list, click **Add Product**.
4.	On the **Software** tab, look in the section **Automatic Online Software Update**.
5.	Click **Start Update**.

Via web interface:

1.	If your receiver is installed remotely, open a browser window to access the receivers web interface and log in.
2.	Go to **Receiver Setup\Tools\Firmware**. Check the available firmware updates. If a new firmware file is available, press the **Download from Leica website** link to download the file to your PC.
3.	Click the **Upload new firmware file** ✚ button.
4.	Click the **Browse...** button and select the new firmware file.
5.	Click the **Upload** 🔽 button to copy the file to the SD Card.

6.		You will be directed back to the **Firmware management** page once the file upload is complete.
7.		Click the **Install** ⊙ button to install the new firmware. This may take several minutes.
8.		The receiver will automatically reboot following the installation of the new firmware and you will be directed to the **Log in** page.
9.		To verify if the installation was successful go to the **Status\Receiver Information** page and view the installed firmware versions.

In case activation fails...

EITHER
